

# Uniarch Video Management Software

## Key Features

- Unified management for IP cameras, NVRs.
- Efficient device management: Automatic device discovery (or search by network segment); add devices by IP address/domain name; add devices by EZDDNS; add devices and adjust time in batch.
- Diverse functions:
  - Live view: scene, custom layout, split screen, auxiliary screen display, corridor mode, sequence display, audio, two-way audio
  - Recording: local recording, alarm-triggered recording, scheduled recording, recording download
  - Playback: synchronous/asynchronous playback, instant playback, smart search, recording search by time/event, and play recordings on SD card
  - PTZ control: preset, preset patrol, recorded patrol, patrol plan
  - Alarm: Service alarm (event alarm), device alarm (online/offline, etc.), alarm triggering (live view, etc.), real-time/history alarm

## management

- E-Map: hot spot, hot zone, eagle eye, and map alarm

## Specification

Function	Description
<b>Note:</b> Functions and system requirements may vary with software version.	
<b>Device Management</b>	
Features	Device discovery (auto discovery, specify network segment) Add devices by IP address/domain name/ EZDDNS Cloud device management(add, edit, delete and share) Group devices, view device status, restart device Remote configuration(image parameters, encoding parameters, OSD)
<b>Live View</b>	
Screen Layout	1/ 4/ 5 /6 /8 /9 /10 /13 /16 /17 /25 /32 /36 /64 split view 1 / 4 / 9 / 16 / 25 default view and custom view 3 auxiliary screens
PTZ control	Pan, tilt, zoom, shortcut PTZ, focus, preset, patrol, 3D positioning, IR control, wiper control, heat control, snow removing <b>Note:</b> Actual functionality may vary depending on device capability.
Features	Group display, sequence display, snapshot, digital zoom, scene, instant playback, local recording, default and custom view, custom stream, corridor mode, audio, two-way audio, and manual alarm
<b>Alarm</b>	
Type	Multiple alarm types including device alarms and service alarm
Alarm Triggering	Live view, recording, email, preset, sound and etc. Trigger other IPCs
Alarm Records	Real-time alarm info display and acknowledge History alarm display/acknowledge/query
<b>E-Map</b>	
Format	PNG/JPEG/BMP
Map Alarm	Alarm flash, search and acknowledge
Features	Hot spot, hot zone, map zoom in/out, eagle eye
<b>User Management</b>	
User Management	Add, edit and delete user, query user
User Level	Super administrator, administrator, operator
User Info	User name, password, user level, permissions Different default permissions for different user levels Assignable permission(s) of each IPC
<b>System Configuration</b>	
Audio & Video	Configure video processing mode, display mode, stream transmission protocol Enable shortcut PTZ control, GPU mode Configure snapshot mode, image save path Configure format and save path for local and downloaded recordings
System	Enable auto login to Uniarch Client/ Windows Set retention period for operation/alarm log Import and export configuration

Operation	Set alarm duration, alarm recording start and end time Enable auto time sync, set synchronization interval Configure SMTP server and email address used to send/receive emails
System Requirement	
Uniarch Client 64-bit	Operating System: Microsoft Windows 7/Windows 8/Windows 10 (64-bit) CPU: Intel Core i5 3.1 GHz or higher Memory: 4GB or higher
Uniarch Client 32-bit	Operating System: Microsoft Windows 7/Windows 8/Windows 10 (32-bit or 64-bit) CPU: Intel Pentium IV 3.0 GHz or higher (4Cores, 3.0 GHz recommended) Memory: 4GB or higher
Uniarch Client Mac	Operating System: Mac OS 10.11 or higher CPU: Intel Core i5 3.1 GHz or higher Memory: 4GB or higher
