How to get RTSP stream of new 4K fisheye camera

杨廷轩

4k Fisheye RTSP stream Format

Format: <rtsp://username:password@IP:port/media/videoX>

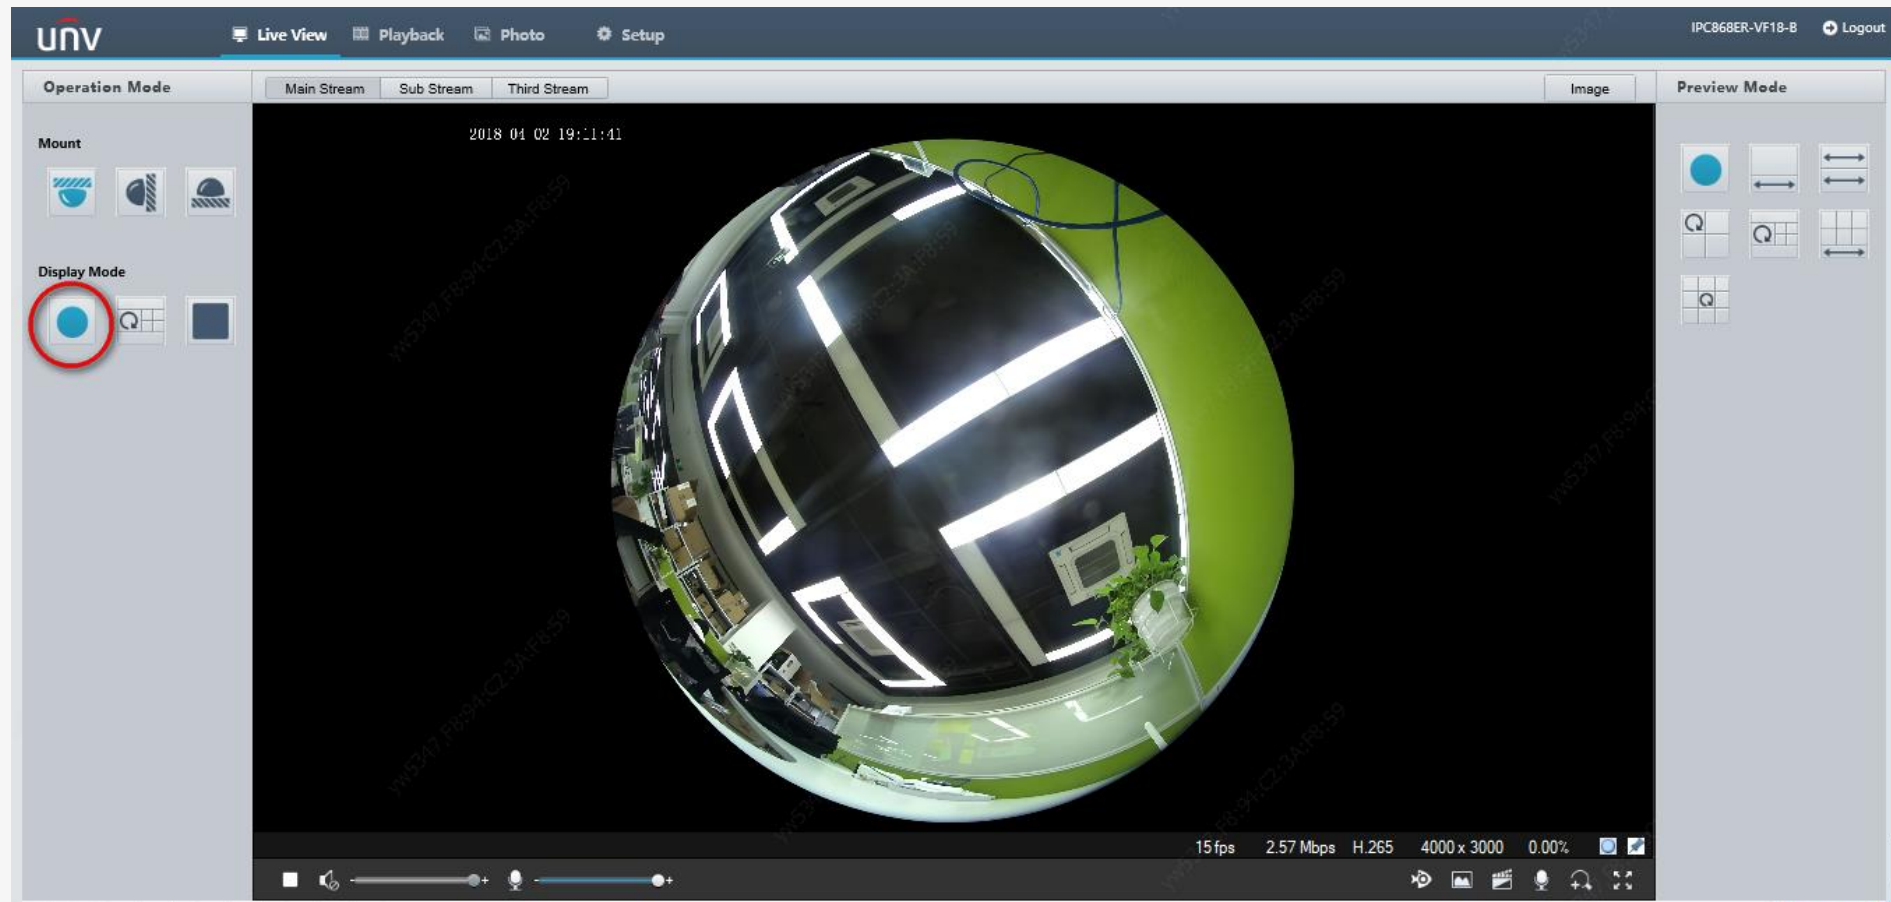

- username: IPC account username
- Password: IPC account password
- IP: 4k fisheye IP address
- Port: 4k fisheye RTSP port

Stream	Display Mode	Format
fisheye main stream	Fisheye mode	rtsp://username:password@IP:port/media/video1
fisheye sub stream	Fisheye mode, Fisheye+4PTZ mode, Panoramic mode	rtsp://username:password@IP:port/media/video2
fisheye third stream	Fisheye mode	rtsp://username:password@IP:port/media/video3
EPTZ stream1	Fisheye+4PTZ mode	rtsp://username:password@IP:port/media/video4
EPTZ stream2	Fisheye+4PTZ mode	rtsp://username:password@IP:port/media/video5
EPTZ stream3	Fisheye+4PTZ mode	rtsp://username:password@IP:port/media/video6
EPTZ stream4	Fisheye+4PTZ mode	rtsp://username:password@IP:port/media/video7
panoramic stream	Panoramic mode	rtsp://username:password@IP:port/media/video8

Fisheye main stream

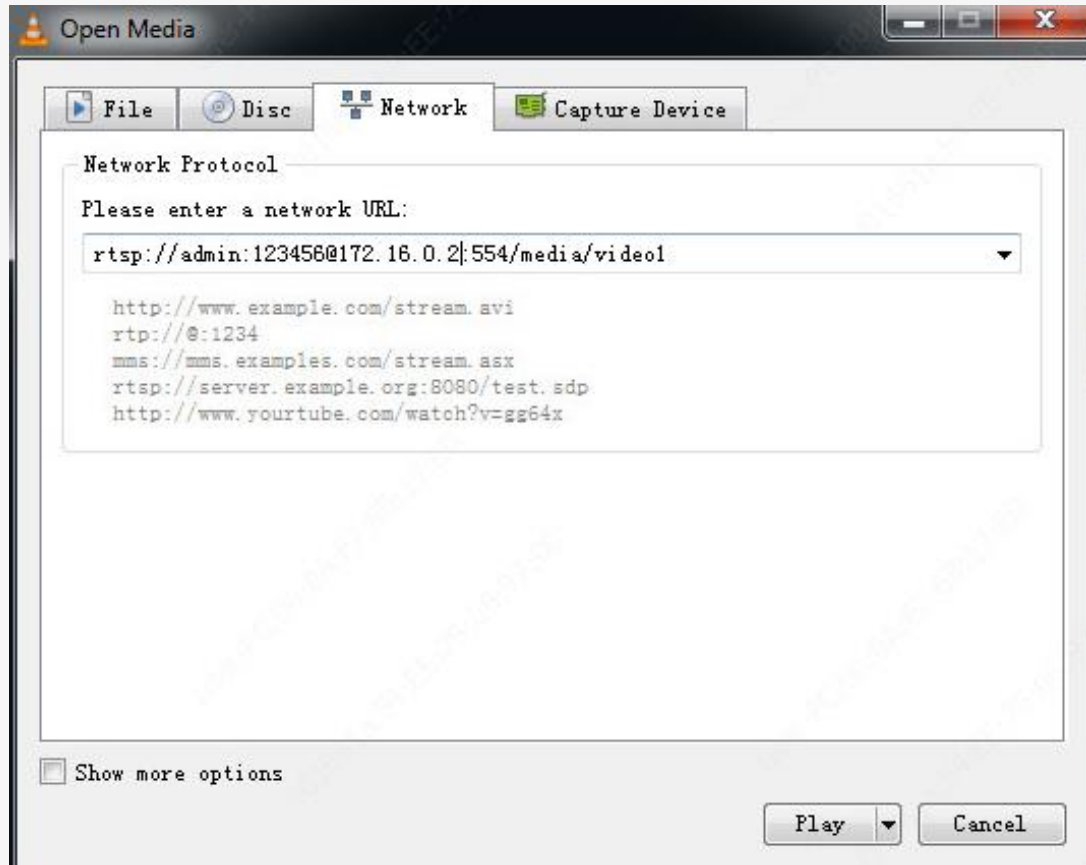

Take getting fisheye main stream in Fisheye mode for example

Step 1: Choose the 'Original Image' mode (Fisheye mode) in the Display Mode menu

Fisheye main stream

Step 2: Fill the format in VLC and get the fisheye main stream

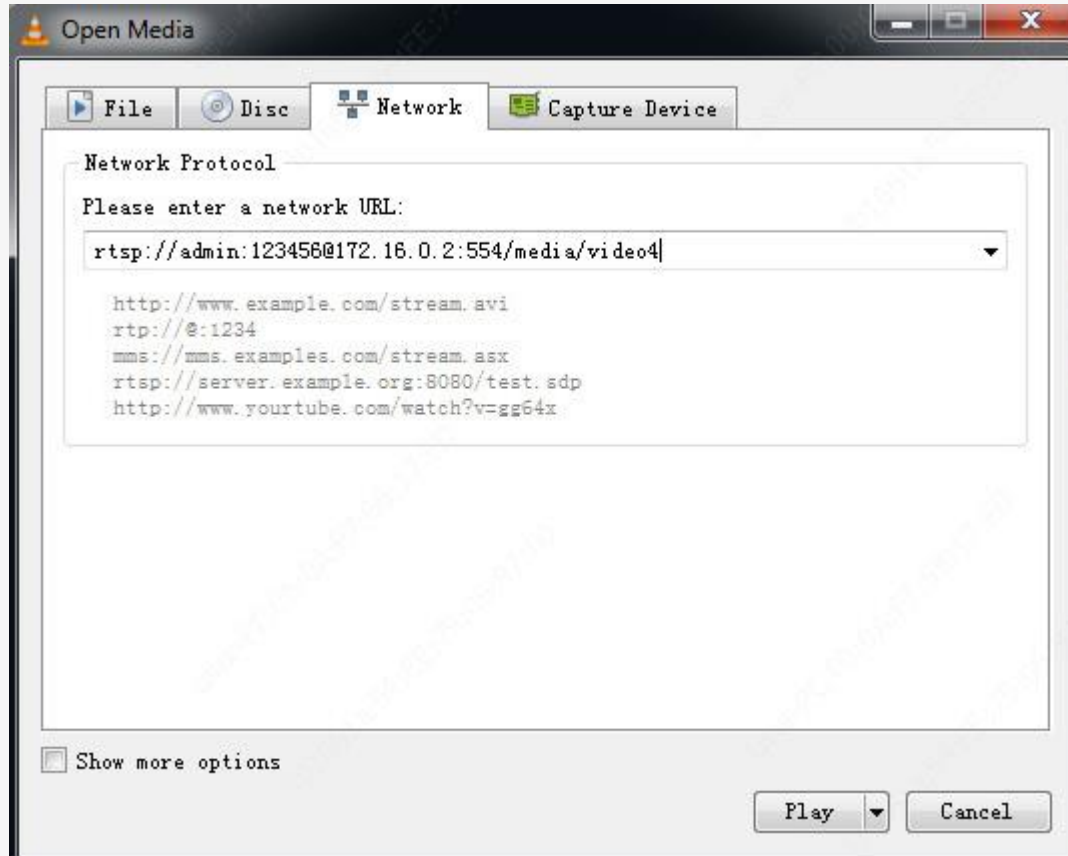

Fisheye main stream display on VLC

PTZ stream

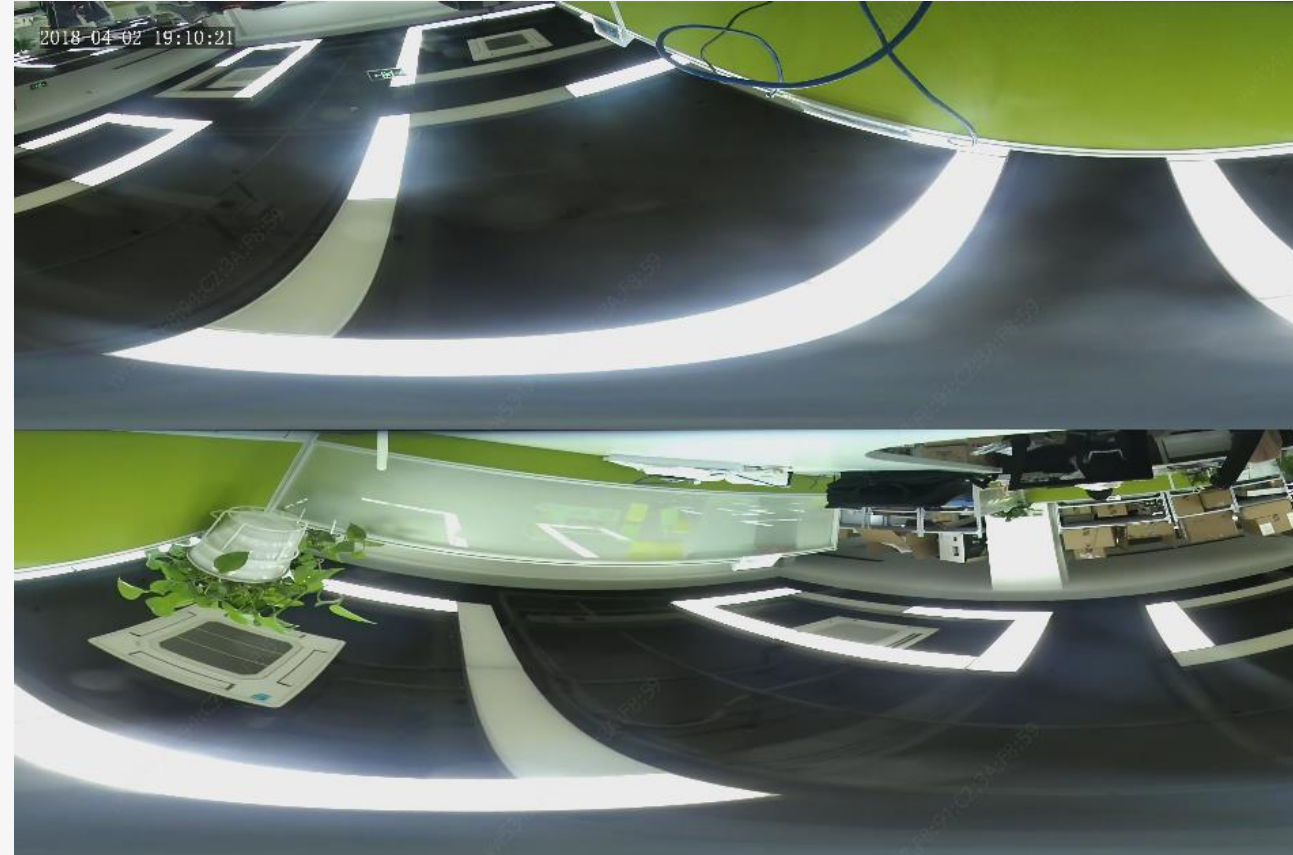

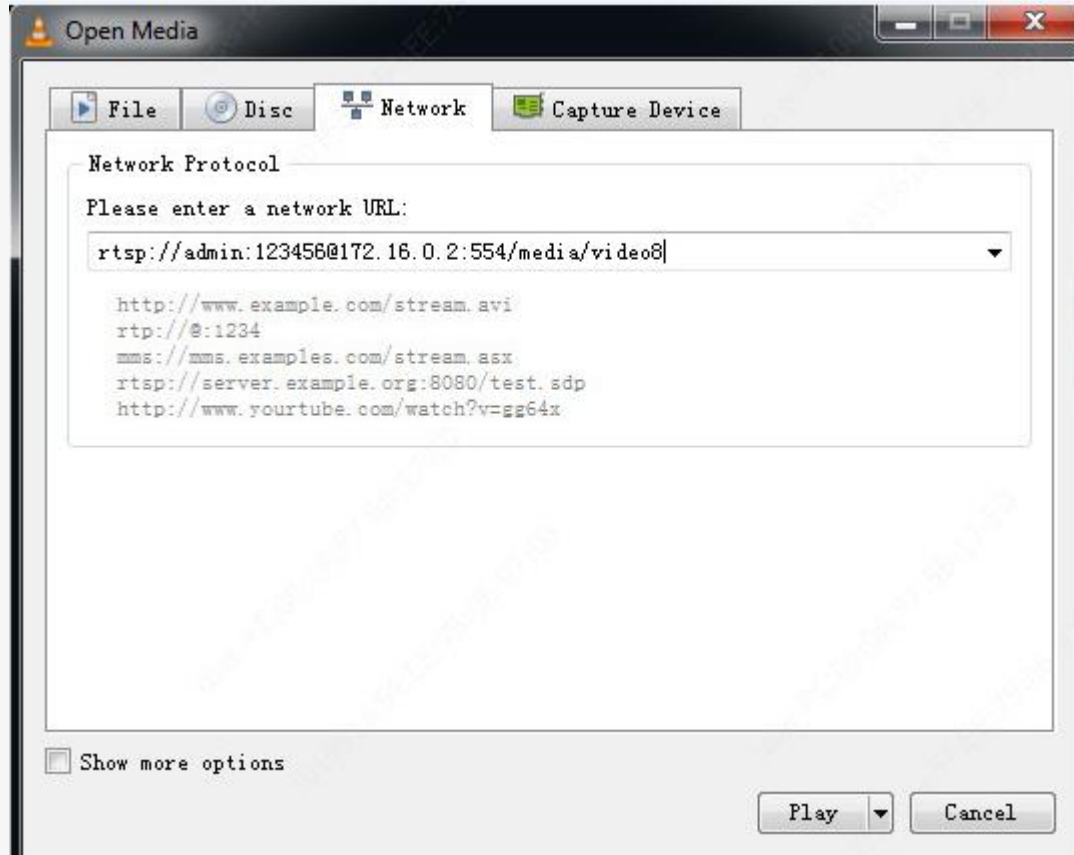

Get the PTZ1 stream

NOTE: The Display Mode must switch to Fisheye+4PTZ mode before get stream

Panoramic stream

2. Get the panoramic stream

NOTE: The Display Mode must switch to Panoramic mode before get stream
